

# Company Profile & Capability Overview

Public supplier review material for TJNE Global.

This overview introduces Xi'an Taijin New Energy & Materials Sci-Tech Co., Ltd. / TJNE Global for preliminary supplier review and project communication.

## 1. Company identity

- Official Chinese company: Xi'an Taijin New Energy & Materials Sci-Tech Co., Ltd. / 西安泰金新能科技股份有限公司
- International website: TJNE Global / tjneglobal.com
- Stock abbreviation: 泰金新能; stock code: 688813.SH

## 2. Product scope

- Coated titanium anodes, MMO/DSA electrodes, platinized titanium anodes and lead dioxide anodes
- Electrolysis cells, sodium hypochlorite electrolysis cells and industrial electrochemical components
- Copper foil equipment modules including cathode drum, anode cell, copper foil anode, copper dissolution and surface treatment equipment
- Hermetic connectors and precision components for selected industrial equipment applications

## 3. Manufacturing and quality

- Industrial electrochemical manufacturing experience since 2000
- Manufacturing, testing and quality-management processes for customized industrial components
- Public certificates and supplier review documents can be shared for preliminary evaluation

## 4. Project communication

- TJNE reviews applications according to confirmed operating conditions, drawings, electrolyte/water data and supply scope
- Water treatment and hydrogen-related discussions focus on cells, electrodes and core components; copper foil equipment may involve broader module integration or EPC discussion when appropriate

### i Public scope note

Public document for initial communication only. Product configuration, technical proposal and performance discussion depend on confirmed operating conditions, drawings, electrolyte/water data and supply scope.

This document does not include customer names, drawings, commercial terms, coating formulas, Ir/Ta ratios or non-public operating data.
